History

A screenshot of a web browser displaying the Internet Hall of Fame website. The browser's address bar shows the URL "internethalloffame.org/inductees/rolf-nordhagen". The website has a dark blue header with a gold logo on the left and a navigation menu on the right. The main content area has a gold banner with the word "INDUCTEES" in blue. Below this, a white sidebar on the left contains a black and white portrait of Rolf Nordhagen and a list of links. The main text area on the right features the title "Rolf Nordhagen" in a large serif font, followed by the subtitle "Posthumous Recipient" in a smaller italicized font. The text describes his role in the Norwegian academic network UNINETT and the Nordic university network NORDUnet. The browser's taskbar at the bottom shows various application icons, and the system tray on the right indicates the date and time as "19. april 10:38".

Examples of the Internet Society in Action

World Conference International Telecom

- A United Nations conference that gathered more than 1000 people from around the world
- The Internet Society focused on ensuring continued support for the Internet's successful multistakeholder model
- Activities included providing information to and convening policy makers, industry, and civil society

What can *you* do?

for a better Internet

Install IPv6 at home

Ask your ISP

“What is your plan for IPv6?”

“When can I get it at home?”
